

Item No.: SO4204-1A

UniTrain component kit, DC technology

Includes:

- CD-ROM with LabSoft and course software
- Documentation on CD-ROM
- 26 resistors, 1 potentiometer, 1 capacitor,
- 1 NTC thermistor, 1 PTC thermistor, 1 LDR, 1 VDR

Course contents:

- Electric circuits/Ohm's law
- Kirchhoff's laws: series and parallel connection of resistors
- Circuits with mixed connection of resistors
- Voltage divider circuits with fixed/variable resistors
- Bridge circuits with resistors
- Applied circuits using NTC and PTC thermistors, VDRs and LDRs
