

# HM 700.05

Cutaway model: corner valve

#### Description

#### cutaway model of a standard corner valve

The cutaway models are actual fittings and components as used in real pipework installations, e.g. valves, an orifice plate, a measuring nozzle, shut-off fittings, a safety valve and pumps.

The models are clearly laid out on display panels or base plates.

A short description and a sectional view are included, so the models can also be used for technical drawing exercises.

## Learning objectives/experiments

 familiarization with the construction and functionality of all parts

## Specification

- [1] cutaway model of a corner valve
- [2] equipped with flange fittings
- [3] mounted on display panel
- [4] contrasting colouring of parts to highlight internal details

# Technical data

Fittings: 1 ¼" Material: gun metal/steel

#### Corner valve

- nominal pressure: PN16
- nominal diameter: 2"
- installation length: 56mm
- I flow media: steam, gas, fluids

## LxWxH: 400x370x300mm Weight: approx. 8kg

# Scope of delivery

- 1 cutaway model
- 1 description
- 1 sectional view
